ABDELGHANI BAHRI

Frontend Developer

Annaba, Algeria | +213 775 663 637 | abdelghani.bahri0@gmail.com | Portfolio | Github | LinkedIn

SUMMARY

Frontend Developer with 2 years experience in Javascript frameworks like NextJs, ReactJs, and VueJs. Developed responsive platforms, visualized data with D3Js, and built APIs for enhanced functionality. I implemented core features like authentication and ùultilingual support. Skilled in agile methodologies, code reviews, and testing. Seeking new Challenges to push the boundaries of technology and eager to make significant impact.

EXPERIENCE

Personal Development Break

📅 07/2024 - 12/2024

Took a strategic career break to focus on personal growth, skill enhancement (Typescript & NodeJs), resulting in a refreshed perspective and enhanced capabilities.

GO-Platform

Frontend developer

📅 11/2022 - 07/2024   📍 Algeria

Talent assessment platform, that evaluates candidates' skills and provides companies with detailed reports

- Developed **GO-Platform website** 🔗 creating over 60 Vuejs components, and configuring packages for data visualisation and state management (Pinia, D3).
- Built an API with NodeJs for easier integration, and attracting more customers.
- Maintained code quality and handled deployment processes.
- Conducted pair programming and learning sessions, while supervising 4 interns.

PROJECTS

🔗 HopeHub online therapy platform   📅 10/2023 - 11/2023

- Led daily stand-ups and sprints, and worked in agile environment with GitHub workflow, pushing code, and reviewing peers' code.
- Implemented different core functionalities such as: Multilanguage; authentication; scheduling; video calls.
- Worked efficiently in agile environment with GitHub workflow, pushing code, and reviewing peers' code.

🔗 E-chri e-commerce website   📅 09/2023

- Implementd authentication, and data storage with Firebase.
- Processed API response to filter products according to user prefrences.

🔗 Rotten Potato movie project   📅 09/2023
